THE SCHOOL PHILOSOPHY EMPHASIS ON VALUE EDUCATION

The importance and need of Value education in the era of globalisation and fastest changing world is of High priority. Value education is deeply rooted in Indian Philosophy and culture and ingrained in almost all tradition of our culture. We feel educational institute plays a vital role in the promotion of values in students life. Actually value education is the process by which we teach moral values to our students.

Hon. Mrs. Vidya G. Pol

The purpose and main function of education is the overall development and building up well- balanced personality of the students, and also to develop all dimensions of the human intellect so that our children can contribute to make our nation more democratic, cohesive, socially responsible, culturally rich and intellectually competitive generation.

According to T. Roosevelt, “To educate a man in mind and not in morals is to educate a menace to society.” The supreme end of education is expert discernment in all things –extracting positivity, hopes, and good conclusion from all existing things.
